Early Childhood Development Center

Young children are offered daily opportunities to encounter many types of materials, many points of view, working actively with hands, minds and emotions, in a context that values the expressiveness and creativity of each child in the group. Together we’re helping to raise future citizens of the world who will advocate for themselves, welcome guests to the table and be upstanders for friends and strangers alike.

The JCC’s Early Childhood Development Center is a warm, welcoming and diverse community for children 6 weeks to 5 years old. At our ECDC you can trust your child is safe, secure and engaged by nurturing professionals who encourage your child to grow and thrive.

We offer a program that views young children as capable and full of potential; as people with complex identities, individual strengths and capacities, and unique social, linguistic and cultural heritages. We believe that discovery and play are a young child’s most important “work.” We provide countless opportunities for children to develop skills and confidence, as well as the environment and freedom for children to have fun!

Our staff considers parents our partners. We welcome your input and strive for ongoing communication between home and school. Together, we can foster your child’s feelings of self-worth, independence and success.

At ECDC, we promote universal values, encourage children to appreciate diversity and provide an environment that promotes acceptance and a sense of belonging.
