EARLY CHILDHOOD

ANNABELLE RUBINSTEIN EARLY CHILDHOOD DEVELOPMENT CENTER

Children grow and thrive in a program enriched with language, reading, math, science, art, music and fun. We believe that discovery and play are young children's most important "work," preparing them for the academic and life challenges ahead.

Our Approach

ECDC's approach to early learning is inspired by the ideas and practices developed in Reggio Emilia, Italy, for the education of young children. This program—based on the principles of respect, responsibility and community through exploration and discovery in a supportive and enriching environment—resonates with the JCC mission. ECDC's curriculum recognizes each child's voice and strives to provide a beautiful environment, small groups for children to do their work, and access to a wide variety of learning materials.

Our Core Beliefs and Values

- Children are constructivist learners
- Early Childhood educators are professionals
- Our families are our partners
- Our environment is an inspiration for inquiry

Become a Project UPstander Volunteer

UPstanders are community members who provide acknowledgment, understanding and support for neighbors facing challenges as a result of hateful acts, natural disasters, violence, or intolerance that threaten the integrity of their community.

The way it works:

- When a need presents itself, JCC's Center for Loving Kindness sends out an email alert announcing the UPstander volunteer opportunity.
- Each opportunity is stand-alone— we are grateful for the role you play at any time, with no commitment to volunteer on a regular basis.
